

EVENT GRAPHICS

Graphic Image Wraps — When completing the look of your event or venue, Installation Arts can add the perfect finishing touch with our custom wraps. Whether you wish to employ your fencing as an information display or you'd like to assist your visitors to find their way, our Fence Wraps create the perfect solution to large unsightly fences. Created either from your own image, as part of your entire event package, or customized with the help of one of our designers, these fabric solutions are printed on specialty perforated fabric designed to allow the wind to pass through easily while displaying a vibrant, high definition double sided image. Or add that extra sense of professionalism to your next trade show or press conference with our custom table wraps. Whatever your needs, Installation Arts can help you find the perfect piece to finish off the look of your venue.

EVENT GRAPHICS

Fence Fabric — Patented perforation design provides elasticity and promotes even distribution of wear - Offers 25% longer life - Strong reverse image quality - Outdoor use, best for Fence Scrims

Woven Polyester — Knitted, matte polyester with very strong front side color intensity - Single sided - Best for table wraps, media backdrops, tower wraps, scroll banners and indoor banners

Poly-Nylon — Alternative fabric to traditional nylon or vinyl - Polyester based textile that behaves like nylon - Opaque brilliant white that will produce quality, vibrant images
